

WELCOME TO THE

Connected Highway

For the last few decades, RAM® Mounts has collaborated with the industry's best innovators to build the future of mobility. The key to a mobile workforce combines device, software, and docking solution. That's why we created The Connected Highway—a commitment to making the most reliable and affordable device mounts, paired with the best solutions providers in the world. Every day our engineering team looks for ways to optimize product performance to seamlessly integrate into one another, making the lives of drivers worldwide easier.

CONNECTED
H I G H W A Y

DEVICE

Every journey starts with a device. Without an ELD, the new age of the connected worker isn't possible.

SOFTWARE

Industry standard ELD software insures compatibility across the device and docking station.

DOCKING STATION

RAM® Mounts ties the entire solution together with a wide variety of device specific powered docking stations.

The Industry Standard

National Products, Inc. has supplied the most rugged and connected mobile device mounting systems on the planet. With the globally recognized RAM® Mounts, award-winning GDS® Tech™ and IntelliSkin® product lines, executing NPI's mission to bring world-class mounting solutions to real-world applications has become essential to success in all industries—we are the industry standard.

RAM® Tough-Bar™ for Ford F-250

FEATURED SOLUTIONS

RAM® Tough-Bar™

The RAM® Tough-Bar™ delivers a durable, secure, and ergonomic mounting solution for in-vehicle devices. With three secure connection points, built-in collar locks for added protection, and a low-profile design for extra legroom, this upgrade keeps devices front and center at eye level—reducing neck strain while ensuring quick dash access.

FEATURES

DURABLE

Engineered for durability, the RAM® Tough-Bar™ secures to the passenger seat bolt, driver seat bolt, and center dashboard for maximum stability. This design minimizes device movement, ensuring reliable performance in demanding driving conditions.

COMFORTABLE

Designed for comfort, the RAM® Tough-Bar™ keeps your device front and center at eye level to reduce neck strain. Its Friction-Lock™ Hinge Arms enable quick adjustments, while the low-profile design maximizes legroom for a more ergonomic drive.

SAFE

The RAM® Tough-Bar™ enhances safety by keeping devices out of the driver's sightline while built-in collar locks prevent contact with the vehicle. This protective design safeguards your equipment and interior, ensuring a secure and professional setup.

Device Docks

SEEN IN THIS PHOTO:

RAM-GDS-DOCK-U1CP-CU
GDS® Uni-Conn™ Power +
Single USB-C Dock

DEVICE DOCKS

Low-Profile Docks

Our low-profile docks for Samsung Tab Active5 are constructed with a metal reinforcement plate on the back, allowing for a dramatic reduction in the dock's overall footprint to feature a total depth of 2.28". Power capabilities from the dock are provided to the device through pogo pin technology and integrated USB-C cable, taking advantage of the Tab Active5's integrated pogo pad docking contacts.

DEVICE DOCKS

IntelliSkin® & GDS® Tech™

The IntelliSkin® with GDS® Tech™ system is designed to protect both the device and the device port by converting the connection point to ruggedized pogo pad contacts. No more plugging and unplugging, dirt, damage, or debris interrupting your device's connection.

BUILT-IN LED

Select IntelliSkin® cases have a built-in LED option for situations when you need a flashlight in a pinch.

PORT PROTECTION

IntelliSkin® is the only case system on the market that protects the device port and converts that connection point to ruggedized pogo pads for charging and data transfer.

POGO PIN CONNECTION

Unlock the GDS® Ecosystem™ with a large collection of docks built with an integrated Distinctive D Shape™ pogo pin connector for a hassle-free user experience that helps increase efficiency.

Types of IntelliSkin®

INTELLISKIN® NEXT GEN

Ultra-rugged and drop-protected made of polycarbonate shell and thermoplastic polyurethane frame.

INTELLISKIN® HARD CASE

Sturdy two-piece enclosure made of hard composite.

INTELLISKIN® THIN-CASE™

Low-profile connectivity and clean edges, for the working professional.

GDS® Uni-Conn™

GDS® Uni-Conn™ is a universal, snap-in docking system that eliminates the need for expensive device upgrades. With just an IntelliSkin®-wrapped device and a GDS® Uni-Conn™ adapter, you're ready to connect seamlessly. This system not only streamlines the upgrade process but also makes docking effortless. When it's time for your next device upgrade, remember: there's only **One Dock to Connect Them All™**.

GDS® UNI-CONN™ ADAPTERS FOR INTELLISKIN®

Unlock the potential of GDS® Uni-Conn™ by installing the button adapter with hand strap (RAM-GDS-U1HSU) or standard adapter (RAM-GDS-U1U) to the back of your IntelliSkin®.

SEAMLESS DEVICE UPGRADES FOR THE FUTURE

When the time comes to upgrade devices in your fleet, a new IntelliSkin® is all that is needed—keep your existing dock. **NOTE: failure to install lever stop voids warranty.**

SPRING-LOADED FOR BACKWARDS COMPATIBILITY

A spring-loaded version of the GDS® Uni-Conn™ dock is available for tablets outside the list of snap-in compatible IntelliSkin®.

RAM® vs. GDS®

RAM® Docks

FOR CLOSED-COCKPIT, CLEAN, & LOW-IMPACT ENVIRONMENTS

While all RAM® products are rugged and reliable, OEM device ports vary in their ability to maintain a clean, reliable connection. With this consideration in mind, mounting a device without an IntelliSkin® is generally recommended in static or closed cockpit environments that are less likely to collect dirt or debris.

DEVICE STAYS DOCKED

Frequent insertion and removal can stress docking contacts, so if you plan to keep your device docked long-term, RAM® Docks are ideal.

BUILT-IN SPEAKERS

RAM® offers powered docks for the Samsung Tab Active5 with integrated speakers for a sleek, in-cab solution.

SMALL SCALE & SHORT TERM

A single RAM® Powered Dock is more cost-effective than a GDS® Dock™ with IntelliSkin®, but upgrading your device might require a new docking station, potentially increasing costs over time.

AVAILABLE FEATURES IN RAM® & GDS® DOCKS™

-  Locking & Non-Locking
-  Single & Dual Peripheral Support
-  Ethernet Connectivity
-  Temp Control Accessories
-  Heated Pogo Pins
-  NFC Extender
-  DB9 Connector
-  Speaker

GDS® Docks™

FOR OPEN, DIRTY, & HARSH ENVIRONMENTS

In dirty, rough environments, interrupted device connection is unavoidable. This is mainly due to the lack of cleaning maintenance and excessive debris buildup. The pogo pad contacts on the bottom of the IntelliSkin® are intentionally flat to reduce the debris buildup, making it easy to clean.

DEVICE MOVES FREQUENTLY

IntelliSkin® paired with GDS® Docks™ protect your device from frequent docking and undocking by converting the connection point to ruggedized, easy-to-clean pogo pad charging contacts.

EFFORTLESS CHARGING ECOSYSTEM

GDS® Docks™ provide various solutions for moving devices between locations, including the rugged GDS® Tough-Dock™, universal Uni-Conn™, and multiple Desktop Docks.

LARGE SCALE & LONG TERM

GDS® Ecosystem™ costs more upfront than a RAM® dock, but is more cost-effective over the long-term as our Uni-Conn™ Dock is future-proofed, and able to accommodate future device refreshes without replacing components.

GDS® CAN Bus

For the last few decades, RAM® Mounts has collaborated with the industry's best innovators to build the future of mobility. The key to a mobile workforce combines device, software, and docking solution. Every day our engineering teams look for ways to optimize product performance to seamlessly integrate into one another, making the lives of drivers all around the world easier, and business logistics scalable. That's why RAM® offers turnkey, rugged, cost-effective mounting solutions for ELD compliance. Depending on what device you are deploying, RAM® will either have the right solution ready to go or custom-build the right kit for you. Take advantage of upgrades like peripheral support, add-on accessories, and the award-winning GDS® Tech™ for connective longevity and reliability.

HOW IT WORKS

The GDS® CAN Bus allows users to simultaneously charge on board ELDs and extract RAW CAN data to be read by third-party software, providing unparalleled flexibility and control over vehicle data.

Temperature Control

Located at the back of your dock is an empty housing for upgrading your mounting solution. This housing can accommodate various temperature modules provided by RAM® Mounts. Easily install either the RAM® Vent-Temp™, which connects to your vehicle's A/C vents or the RAM® Temp-Right™, which provides regulated heat in extremely cold environments.

About RAM® Mounts

RAM® Mounts manufactures rugged and versatile mounting systems for phones, tablets, and other mobile devices that can be attached nearly anywhere. Unlike other mounts on the market, RAM® allows you to secure devices where you need them most. The unique design of the RAM® Mounts system provides quick installation, adjustability, strength, vibration damping, and durability—all at a low cost. Backed by a lifetime warranty, RAM® uses powder-coated, marine-grade aluminum with lightweight and high-strength composites, stainless steel hardware, and rubber balls.

The RAM® Difference

PREMIUM DESIGN

The rubber ball and socket design of our mounting systems offers a secure hold, with near-infinite adjustability and vibration damping for the most demanding environments. With thousands of components trusted by users around the world, we've been able to design and develop mounting solutions that consumers and companies previously only dreamed were possible.

CUSTOMIZABLE

Take your phone mount from your truck to your boat, or mix and match components to create your ideal mount. Because of the modularity of the RAM® system, you can customize your solution to fit your specific needs in almost any application.

QUALITY MATERIALS

A premium design deserves the highest quality materials available, from rubber and stainless steel to high-strength composites and marine-grade aluminum. Our facilities—including powder coating, die casting, rubber injection molding, and shock and vibration testing—help us deliver on this promise to bring you inventive mounting solutions.

LIFETIME WARRANTY

It's simple. Our reputation as the leader of premier mounting systems means if we build it, then we guarantee it. We're confident in the quality of our products, and with our warranty, you can be too.

*1-3 year warranty on electronics, including powered docks

National Products Inc. (NPI)

Introduced in 1990, National Products Inc. (NPI) quickly became the leading manufacturer of rugged and versatile mounting solutions. RAM® Mounts has grown to offer approximately 5,000 modular components—the most innovative product line of its kind for nearly any application and device, including phones, tablets, GPS systems, laptops, marine electronics, printers, radios, and much more.

In addition to RAM® Mounts, NPI is also the creator of award-winning IntelliSkin® sleeves and GDS® Technology™ products. IntelliSkin® sleeves ruggedize a wide range of consumer phones and tablets, while the GDS® Ecosystem™ provides users the ability to securely charge, dock, and sync devices in the most demanding environments.

NPI is proudly located in Seattle, Washington in the same neighborhood where the company was started.

Partner with RAM® Mounts

Here at RAM® Mounts, we believe that unfathomable things are possible with ingenuity. With a portfolio of more than 5,000 SKUs paired with innovative engineers and in-house product experts, we have the tools and expertise needed to create solutions that you didn't know were possible. We have the ability to solve your mounting challenges quickly, efficiently, and cost effectively.

Industry Catalogs

If your business goes beyond transportation, there's a lot more to explore with RAM® Mounts. From material handling and agriculture to retail and aviation, each industry catalog offers purpose-built solutions that keep your gear secure and your operations running smoothly. It's a simple way to explore the right mounting solutions for each unique sector of your business—all in one place.

Mount Anything, Anywhere.
